New Horizons at Marlborough, LLC Serving Metrowest Seniors Since 1994 A Turning Point in Senior Living!

April 2017

APRIL IS VOLUNTEER MONTH We are so grateful to the residents and friends who go above and beyond for us, volunteering their time for the benefit of our community. Bob Fagone's readings of the classics keep us spellbound; Busy Hands' Alice Wright and her talented circle of knitters donate proceeds from their works to worthy charities; Helen Gagliardi entertains us with such diverse topics as pop-up books, a remarkable trip to Japan and the origins of calendars; Elizabeth Gebhard keeps our greenhouse blooming; and Ron Barclay has entertained us with countless Thursday afternoon and holiday piano performances. Thank you, all!

signing and building an ultra-high-speed digitizer for Harvard College Observatory. The complex machine is preserving a half-million fragile glass slides that chronicle a century's worth of exploration of the starry worlds beyond. ROBOTS: THE NEXT GENERATION Thanks to WPI robotics professor Ken Stafford and freshmen Chris Letherbarrow and Andrew Gulotta, residents test drove a new model robot, named "Goat Goat," after WPI's mascot, the goat, built for a soccer-like competition. To learn more about this science and technology program visit: thinktank.wpi.edu Pictured, left to right: Les Gediman (center) has a go at "Goat Goat;" Jean Cullinane (center) takes the controls; Professor Stafford, with Chris and Andrew, seated in front of several admiring residents.

Seasonal Allergies Survival Guide Sooner or later, the snow will melt. The sun will shine brightly. The air will feel warm. Birds will sing, and gentle breezes will blow clouds of microscopic pollen grains into the eyes, noses, and lungs of millions of allergy sufferers. When spring finally arrives, those beautiful trees in bloom and green grassy fields will be trouble for the approximately 20 percent of the U.S. population with seasonal allergies. Here are some tips to survive allergy season:

- Pay attention to the typical signs of seasonal allergies, including itchy eyes, a runny nose, and sneezing.
- Discuss your medications for chronic diseases with your doctor before taking antihistamines, which can interact badly with some medications.
- Do not wait to see a doctor. It is important to treat symptoms of allergies aggressively and promptly.
