October 2023

CELEBRATING GRANDPARENTS DAY AT THE FAMILY FUN FEST: Although the outdoor festivities were cut a bit short by rain, residents and their families enjoyed activities, including live music, games, face painting, an alpaca petting zoo, and live exotic animal encounters.

The festival coincided with Patriots opening day. Resident **Lorraine Lesieur** and her family posed at our football picture booth.

Resident **Barbara Stone** and Community Services Associate **Barbara Reid** enjoy the festivities.

Residents **Phyllis** and **Brendan Doran** enjoyed some ice cream bars outside before the rain set in.

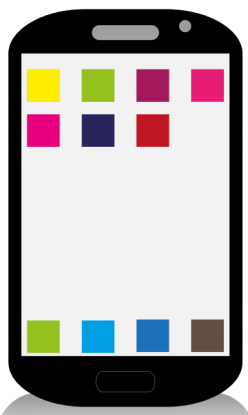

A young visitor showed off her puppy dog face, courtesy of Community Services Associate and face painter extraordinaire **Kayleigh Morales**.

Resident **Phyllis Bagdasarian** and her family member enjoyed live outdoor music by bluegrass band The Splinters.

Resident **Sally Campbell** sported a pumpkin hat purchased at the Busy Hands craft table, just in time for fall.

IMPROVE CONNECTION WITH WI-FI CALLING: Cellular service in the local area is poor, and our outreach to the network providers and government officials with the power to intervene has thus far generated no action. Residents with wireless internet in their homes may improve their service by enabling Wi-Fi calling on their smartphones (typically found within the Settings menu). This setting allows the phone to automatically route calls through the internet when cell service is poor. **Need help?** Visit Tech Help with the CSAs on **Sundays and Wednesdays at 1:00 PM** in the French Village. *Note: If enabling Wi-Fi calling, you must enter your home address when prompted. EMS will use this information to locate you in the event of a Wi-Fi call to 911.)*

AROUND THE WORLD IN MEMORY CARE: Residents are getting their “passports” stamped with a different country each month, exploring the food and culture of many different areas. In September, they visited Italy, sampling some sparkling juice in place of Italian wine, and enjoying Italian music and food. Pictured below, left to right: residents **Cathy Mullane, Cecelia and Morris Karol, and Mary Herman.**

October Calendar Upcoming Events

- Oct 2** Lecture by **Kara Smith:** “Cognitive Changes in Aging with Parkinson’s”
